Elaine L. Chao, Secretary U.S. Department of Transportation 1200 New Jersey Avenue, S.E. Washington, D.C. 20590

Secretary Chao,

The City of Gallipolis is very much in support of Gallia County Engineer Brett Boothe's proposed projects in and around our City. The Appalachian Ohio Infrastructure Gateway Project would improve many of our roads and benefit the citizens in the surrounding area.

The roads are constantly closed for repairs or a weather related event. The residents are stranded and have limited access, if any, to work or school. If there is any type of emergency residents are unable to reach help or emergency vehicles are unable to reach the resident.

The health and safety of our citizens is a top priority and the Appalachian Ohio Infrastructure Gateway Project would be a great benefit to their daily lives. We respectfully request that the Appalachian Ohio Infrastructure Gateway Project be approved.

Thank you,

Eugene Greene Gallipolis City Manager
